## PROJECTS

---

- <https://pushapp.ru> (creating own CMS using Laravel)
- <https://payforinstall.ru> (maintains critical features using Codeigniter)
- <https://new.rodovoederevo.ru/> (implementing different backend features and background tasks using .NET Core 3.1 and C#)
- <https://mts.ru> (Maintaining legacy parts of the website, creating new features according to business demands)
- <https://skylink.ru> (Support and customization of the existing features)

## EDUCATION

---

- St. Petersburg State University of Telecommunications named after Prof. M.A. Bonch-Bruevich, 2018

## MY STRENGTHS

---

I do not shift my job to someone else. If I have a problem, and I can't solve it, and it's clear that my colleagues is unlikely to answer me right away, I'd better go to Stackoverflow and ask. In addition to programming, I like music, play guitar in a band. I try to develop comprehensively and not be a "troglodyte", shielded from the whole world by a wall of monitors.

## ADDITIONAL INFORMATION

---

- English language: B2
- Ready to relocation
