- Parsing and scraping web pages.

Binardy web studio, Fullstack Developer, June 2015 — December 2016

- Creating and supporting internet shops using PHP.

Seventest, Backend Developer (intern), Backend Developer, February 2015 — June 2015

http://seventest.ru/ (http://seventest.ru/)

- Support legacy web-application.

PROJECTS

- https://payforinstall.ru (https://payforinstall.ru) (maintains critical features using Codeigniter)
- https://new.rodovoederevo.ru/ (https://new.rodovoederevo.ru/) (implementing different backend features and background tasks using .NET Core 3.1 and C#)
- https://mts.ru (https://mts.ru) (Maintaining legacy parts of the website, creating new features according to business demands)
- https://skylink.ru (https://skylink.ru) (Support and customization of the existing features)

EDUCATION

- St. Petersburg State University of Telecommunications named after Prof. M.A. Bonch-Bruevich, 2018

MY STRENGTHS

I do not shift my job to someone else. If I have a problem, and I can't solve it, and it's clear that my colleagues is unlikely to answer me right away, I'd better go to Stackoverflow and ask. In addition to programming, I like music, play guitar in a band. I try to develop comprehensively and not be a "troglodyte", shielded from the whole world by a wall of monitors.

ADDITIONAL INFORMATION

- English language: B2
- Ready to relocation
